Dear Mr. Hedberg and Board Members:

RE: Umetco Minerals Corporation
Replacement of Reclamation Bonds
for Reclamation Contracts
M/037/023 (Calliham), M/037/040 (Velvet)
and M/037/006 (Rim-Columbus)

This letter will confirm matters discussed with Mr. Hedberg in our several telephone conversations on September 14 and 15 regarding the replacement of certain Umetco reclamation bonds held by the Division of Oil, Gas and Mining under the Reclamation Contracts described above. As I explained, Umetco intends to replace Seaboard Surety Company's Reclamation Bond Nos. (\$33,700-Calliham), (\$62,535-Velvet) and (\$36,100-Rim-Columbus) with substitute reclamation bonds provided by SAFECO.

You have previously received written notice from Seaboard Surety Company advising that the three reclamation bonds described above will be cancelled effective October 1, 1993. To comply with contract conditions, Umetco is obtaining substitute reclamation bonds from SAFECO which we plan to deliver to you prior to the next Board meeting scheduled for Wednesday, September 22, 1993. The substitute bonds will follow the form you have previously provided Mr. C. K. Dougherty of Union Carbide Corporation, Danbury, CT. Umetco hereby requests the Board's approval of the substitute sureties when received.

Should you have any questions or require additional information, please call me at any time. Thank you for your consideration in this matter.

Yours very truly,

Milton G. Derrick

THE MINED LANDS RECLAMATION ACT

BOND

The undersigned Umetco Minerals Corporation
as principal, and Seaboard Surety Company as
surety, hereby jointly and severally bind ourselves, our heirs, administrators,
executors, successors and assigns unto the State of Utah, Division of Oil, Gas
and Mining in the penal sum of Thirty Six Thousand One Hundred
and no/100 dollars (\$ 36,100.00).

The principal estimated in the Mining and Reclamation Plan filed with the
Division of Oil, Gas and Mining on the 28th day of September
19 83, that 13 acres of land will be disturbed
by this mining operation in the State of Utah. A description of the disturbed
land is attached hereto as Exhibit "A."

When the Division has determined that the principal has satisfactorily
reclaimed the above-mentioned lands affected by mining in accordance with the
approved Mining and Reclamation Plan and has faithfully performed all
requirements of the Mined Land Reclamation Act, and complied with the Rules
and Regulations adopted in accordance therewith, then this obligation shall be
void; otherwise it shall remain in full force and effect until the reclamation
is completed as outlined in the approved Mining and Reclamation Plan.

If the approved plan provides for reclamation of the land affected on a
piecemeal or cyclic basis, and the land is reclaimed in accordance with such
plan, then this bond may be reduced periodically.

In the converse, if the plan provides for a gradual increase in the area
of the land affected or increased reclamation work, then this bond may
accordingly be increased with the written approval of the surety company.

PROVIDED FURTHER, the surety herein shall have the right to cancel this bond at
any time upon giving the principal herein and the Utah Department of Natural
Resources at least thirty (30) days prior notice of its desire so to do, such
cancellation, however, shall not affect its liability as to any amounts then due
or thereafter to become due hereunder as the result of mining occurring prior to
the date of cancellation specified in such notice.
